

INTRODUCTORY UKRAINIAN

Learning a new language is never easy. It takes dedication and practice. You can now learn Ukrainian online and practice when it is convenient for you!

Ukrainian is one of the twenty most widespread languages of the world. As to melody and beauty, the Ukrainian language is considered to be one of the greatest in the world competing with French, Spanish and Italian. Ukrainian is among the languages that are quickly developing and spreading and has therefore contributed to an increase in learners throughout English-Ukrainian Bilingual Schools and the University level.

The University of Manitoba's Introductory Ukrainian online course offers reading, writing, listening and speaking activities as well as video content. At the end of the course, you will be able to demonstrate your ability to comprehend spoken and written language as well as speaking ability through conversations on selected topics through Skype and/or over the phone.

Studying online allows you to manage your time, learn the course materials and complete assignments at your convenience.
